

I wanted to write in support of my local LP radio station - WSCA-LP, Portsmouth Community Radio. With this station, I'm able to find out about local politics, community events and issues that I might normally not know about. As a resident of Portsmouth, NH, our media outlets are often extensions of Boston. While it's important to know what's happening in Boston, local events and stories are not covered. With WSCA, I know what's happening in my community, and I have a channel to connect to other community members.
